BT500 FEATURES

High Speed Network Compatible 10/100/1000 network compatibility

Fully Network Managed View PoE output port voltage, current, power, and status locally or remotely. Disable or perform a timed reset of any or all ports.

Universal AC Input Accepts 85-265VAC input for worldwide operation on any power source - automatically.

500W Total Output High power output of 500W combined (maximum 90W per port - 802.3bt compatible).

Built-in 48V SLA Battery Charger Integrated battery charger provides dedicated backup for all connected PoE devices, reducing load on rack UPS. Battery monitoring provides battery voltage and connection status remotely.

Front Panel Port Status Indication

Dual color port LEDs indicate normal or fault conditions per zone. Green/ Normal or Yellow/Fault **Strong Cybersecurity Protection** Configurable port settings, certificate selection, complex password settings, and other cybersecurity settings provide strong protection against cyber attack.

User Control Multiple user access levels with user activity log to track configuration changes and actions by user.

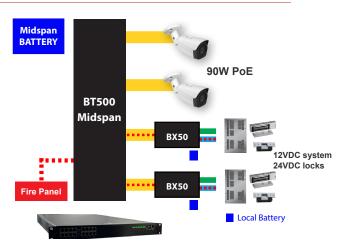

Local Shutdown Input Batch shutdown terminals accept a dry contact for local shutdown of selected outputs, independent of the fire alarm disconnect.

MSM Enterprise Compatible Monitor status of all LSP network connected devices and perform batch firmware updates through MSM Enterprise monitoring software.

BT500 - FIRE OVER ETHERNET™

FOETM When paired with a BX50 PoE splitter, the BT500 can drop lock power on a fire alarm condition from a single fire alarm disconnect at the BT500. This eliminates the need to pull wiring for an FAI connection to each door, saving cost and simplifying installation.

BX50 Fire Over Ethernet™

BX Key Benefit
Fire Alarm Disconnect - local or centralized Fire Over Ethernet™
Built-In Charger - supports SLA or Lithium Iron Phosphate batteries
OutSmart™ - visual voltage verification technology
Built in low battery cutoff - prevents deep discharge
FlexPower Modularity - Works with any LSP enclosure or accessory
Separate Fault Relays - Separate PoE and Battery Fault Relays
