

# BITSTREAM™

power • data • firedrop over ethernet

## Electrical Specifications

Power Supply Board	BX50	BX75
Input	PoE 90W Maximum	
Total Max Output	50W	75W
Max System Power Output	2A/12V	6.2A/12V*
Max Lock Power Output	2A/12V or 1A/24V	3.1A/24V**
Fire Alarm Disconnect	via BT500	Local
Local Battery Backup	System	System & Lock
Battery Type	Sealed Lead Acid (SLA) or Lithium Iron Phosphate (LFP)	
System BTU/Hr	34	41
Full Load Efficiency	84%	88%
Operating Temperature	-4 to +122F (-20 to +50C)	
Board Size (inches)	4 x 6 x 1.18	4 x 6 x 1.78
Board Weight	1 lb	1 lb

\*BX75 System Power Output limited to 5.0A when battery is connected

\*\*BX75 Lock Power Output limited to 1.9A when battery connected

### BX Key Benefit

<b>Fire Alarm Disconnect</b> - local or centralized Fire Over Ethernet™
<b>Built-In Charger</b> - supports SLA or Lithium Iron Phosphate batteries
<b>OutSmart™</b> - visual voltage verification technology
<b>Built in low battery cutoff</b> - prevents deep discharge
<b>FlexPower Modularity</b> - Works with any LSP enclosure or accessory
<b>Separate Fault Relays</b> - Separate PoE and Battery Fault Relays

### Ordering

Model No*	Description	Enclosure
BX50-Boxed	50W power supply board	N/A
BX50-E5	50W ps small enclosure	8.5H x 11W x 3D
BX50-E1	50W ps medium enclosure	14H x 12W x 4.5D
BX50-D8E1	50W ps, 8 aux outputs, med enclosure	14H x 12W x 4.5D
BX75-Boxed	75W power supply board	N/A
BX75-C4E1	75W ps, 4 lock outputs, med enclosure	14H x 12W x 4.5D
BX75-C8E1	75W ps, 8 lock outputs, med enclosure	14H x 12W x 4.5D
BX75-C8D8E1	75W ps, 8 lock, aux outputs, med enclosure	14H x 12W x 4.5D

\*BX modularity allows for other configuration options. See model builder examples.

## Overview

BitStream BX series access control power supplies convert PoE to 12 and 24VDC power for use in access control, surveillance, or other applications.

- **BX50** is compatible with the Fire Over Ethernet™ (FoE) mode of the BT500 PoE midspan injector. FoE provides fire alarm control of the BX50 lock output through a single fire alarm disconnect at the BT500. Local battery backup using SLA or LFP batteries provides backup for the 12V system output.
- **BX75** is a fully 802.3BT compatible PoE splitter, providing local fire alarm lock control through a fire alarm disconnect at the BX75. A built-in battery charger for SLA or LFP batteries provides local backup of both the system and lock outputs.

## Family Specifications

### Input:

- PoE 802.3bt, 90W Maximum

### Outputs:

- System Power Output (12VDC)
- Lock Power Output (BX50: 12/24VDC | BX75: 24VDC)
- Local Fire Disconnect Lock Control (BX75)
- Central Fire Disconnect Lock Control (BX50 via BT500)
- Overload & short circuit protection with auto-restart

### Battery Backup:

- Built-in battery charger for local backup
- Charges Sealed Lead Acid (SLA) or Lithium Iron Phosphate
- Auto switchover to battery with zero transfer time
- Integrated low battery cutoff

### Supervision:

- PoE fail, Battery fail (Separate form "C")
- Low power shutdown when battery voltage too low

### Local Fire Alarm Disconnect Input (BX75):

- DC voltage: 9 to 28VDC, 3 to 15mA
- Dry contact NO/NC
- Optional Fire Alarm latching

### LED Visual Indicators:

- System output, lock output, PoE fault, battery fault, fire alarm activation (BX75), PoE Class (BX75)

### Agency Approvals:

- UL294, UL2610
- ULC S318
- FCC PART 15, Subpart B
- ROHS Leadfree / CE

# BX - PoE Access Power Supplies

High Power | FAI | SLA/LFP Battery

## BX50 FEATURES

**Fire Over Ethernet™ (FoE)** When paired with a BT500 midspan injector, the BX50 can drop lock power on a fire alarm condition from one central FAI connection at the BT500. This eliminates the need to pull wiring for an FAI connection to each door.

**SLA or LFP Battery Charger** Selectable battery charger allows the use of newer technology LFP batteries, or more readily available and lower cost SLA batteries for local backup of System Power (Lock power only backed up when using a midspan battery set).

**50W DC Output** High power output of 50W combined system/lock power is ideal for 1-2 door EDGE applications

**OutSmart™ Visual Voltage Indication** Output LEDs indicate voltage available - Green/12V or Blue/24V.

**FlexPower Modularity** Works with all LSP FlexPower enclosures and accessory boards.

**On-Board Low Battery Disconnect** Automatically disconnects discharged battery sets to prevent deep discharge and protects sensitive electronics.

## BX75 FEATURES

**Local Fire Alarm Connection** Allows fire alarm control of locks with any PoE source. (Note the BX75 is not compatible with the BT500's FoE mode).

**SLA or LFP Battery Charger** Selectable battery charger allows the use of newer technology LFP batteries, or more readily available and lower cost SLA batteries for local backup of System and Lock Power.

**75W DC Output** High power output of 75W combined system/lock power is ideal for 1-4 door Access Control or EDGE applications

**OutSmart™ Visual Voltage Indication** Output LEDs indicate voltage available - Green/12V or Blue/24V.

**FlexPower Modularity** Works with all LSP FlexPower enclosures and accessory boards.

**On-Board Low Battery Disconnect** Automatically disconnects discharged battery sets to prevent deep discharge and protects sensitive electronics.
