LifeSafety Power's FlexPower® Global™ Series Expands into New International Markets and Access Control Specifications with PSE Agency Listing

The FPG family is now PSE certified for applications in Japan.

Phoenix, AZ, June 17, 2021—The FlexPower® Global™ Series (FPG) from LifeSafety Power—designed to provide DC power for access control systems in international applications—is now PSE listed for Japan and compatible with the country's 100VAC applications.

LifeSafety Power's award-winning FlexPower power supply line continues to expand its reach to new markets, bringing reliability and safety to connected access control and security solutions. The FPG family is engineered with power factor correction and a universal AC input allows operation on any input voltage, from 100-240VAC at 50-60Hz. FPG is also compatible with LifeSafety Power's award winning NetLink™ network communication modules, allowing automated remote battery load testing, AC input voltage measurement, email alerts on fault conditions and more. With the addition of PSE certification, FPG now carries listings and approvals for the U.S., Canada, Europe, India, Mexico, Japan and others (UL, CE, PSE, BIS, RoHS).

"Meeting power requirements in new countries effectively expands the reach of power-connected solutions," said John Olliver, Senior Vice President of Sales & Marketing for LifeSafety Power, who also handles international sales. "For the systems integrator and end user, they can rely on our power solutions for all of their global account customers and meet power requirements consistently around the world."

The FPG series, available in wall and rack-mount applications, has a lifetime warranty and includes a metal cover over the PCB for European compliance. Learn more about the FPG series [here](#).

LifeSafety Power will be at GSX 2021, September 27-29 in Orlando at booth 1463. For more information, contact us today at info1@lifesafetypower.com or call (888) 577-2898.

LifeSafety Power is a consummate innovator and specialist in physical security and access control, creating a new category of intelligent networking power solutions that monitor and manage system connectivity across the enterprise. Embracing technology collaboration with some of the most recognizable companies in the industry, LifeSafety Power has carved a unique niche and along the way received numerous awards for its innovation, including Security Industry Association New Product of the Year; Security Today New Product of the Year; SSI Most Valuable Product; and many others. LifeSafety Power was [acquired](#) by ASSA ABLOY in September 2019.

About LifeSafety Power*

LifeSafety Power continues to earn industry accolades and respect for product design and innovation, carving out a new category of intelligent power management solutions that provide robust, proactive analytics to access control, security and mission-critical devices. This new standard of performance by LifeSafety Power substantially adds to overall system health, performance and reliability. LifeSafety Power, headquartered in Phoenix, has won numerous industry awards for product design and innovation, including a 2019 [New Product of the Year](#) from Security Today.
