Product Discontinuation Notice

Dear Valued LifeSafety Power Customer,

We at LifeSafety Power would like to inform you that the model numbers listed below have reached their end-of-life (EOL) status and are no longer being manufactured.

For all future requirements, the FPG60 should be considered the direct replacement for the discontinued FPG50. The FPG60 series not only maintains identical technical specifications and regulatory approvals as the FPG50 series but also includes increased output power up to 60 watts.

All warranty replacements provided by LifeSafety Power will utilize the FPG60.

Part Number	Status	EOL Date	Replacement
FPG50	End-of-Life	4/9/2026	FPG60

Timeline for Discontinuance:

- Final Scheduled Ship Date: 4/10/2026
- End of Warranty Period: Lifetime

Timeline for hardware discontinuance is as stated or until inventory is exhausted.

LifeSafety Power appreciates and values our partnership. While we regret any inconvenience this may cause, we appreciate your understanding as we work to continue providing you with the latest innovative products.

Please contact your local sales representative if you have additional questions.

Sincerely,

Trevor Maness
Product Manager
