

Overview

VCLASS™ Unified Power Solutions are engineered to house FlexPower® power modules alongside HID VERTX™ or Aero™ access hardware in one compact, secure solution.

This unit is a 150W 12VDC access power system.

Two D8 modules provides sixteen auxiliary outputs and each output is configurable for either continuous DC or resettable DC when the fire alarm disconnect is initiated.

VCLASS enclosures are painted steel with removable backplate and include lock, two (2) keys and tamper switch.
