Overview
MCLASS™ Unified Power Systems combine FlexPower® power modules alongside Mercury Security™ access hardware in one compact and secure UL Listed solution. This unit is a 12V and 24V DC dual voltage access power system.

The C4P lock control module provides four access control inputs capable of voltage or dry contact activation, and four outputs programmable for failsafe / failsecure operation at either 12 or 24 VDC and controlled by the integrated fire alarm interface circuit on the FPO.

MCLASS enclosures are painted steel with removable backplate and include lock, two (2) keys and tamper switch.

System Features
- **FPO offline power supply**
  - 120 or 230 VAC input
  - 12 and 24 VDC outputs
  - On board Fire Alarm Interface
  - Continuous and resettable DC
- **Distributed output module**
  - Four, controlled class II power limited at 2.5A each
- **Expansion options**
  - Increased power, multiple voltages
  - Additional distribution outputs
  - Network monitoring and reporting
- **Lifetime Warranty**

Enclosure Features
- **Labor saving design**
  - Pre-wired power section
  - Pre-punched knockouts
  - Removeable backplate simplifies installs
  - Pre-defined hole pattern for power section
  - Access panels mount on threaded standoffs - no drilling required
- **Additional benefits**
  - Wire management room
  - 4.5” enclosure depth fits battery set
  - Tamper switch, lock, dual key set standard
  - Mounting hardware for access boards included

**Enclosure Features**

- **Custom Backplate**
  - LSP power modules pre-wired in top area
  - One EP1502 controller or up to three POE controllers

- **Mechanical**
  - 4.5” cabinet depth
  - Removable door with “fast disconnect” ground strap
  - Multiple knockouts all four sides
  - Network module mounting holes for field upgrade
