

FOR IMMEDIATE RELEASE

Ray Coulumbe Consultant and Founder of Security Specifiers, Discusses the Benefits of LSP's Remote Managed Power Systems

Security Technology Executive

Power Play

Author: Ray Coulombe

Date: April 2011 edition

Network connected power supplies are a welcome addition to the IP table. What comes to mind when you ask “What do CCTV, access control, intercoms, doors, contact closure modules all have in common?” One possible answer is IP connectivity. Now, you can add the ubiquitous power supply to the list.
