LifeSafety Power iSCAN® Wins SSI's Top 30 Innovations for 2014

Mundelein, IL USA - December 8, 2014 - LifeSafety Power announced today it has received a Top 30 Innovation Award from Security Sales & Integration magazine for its iSCAN Remote Power Management systems. "iSCAN enables integrators to improve efficiencies through automated services", said John Olliver, senior vice president of business development at LifeSafety Power. "Our patented remote monitoring capability allows many service functions to be checked remotely, reducing the cost of onsite service or the danger of working in restricted areas".
