

FOR IMMEDIATE RELEASE

**New Unified Wired™ Mercury Systems Designed for Installer Savings Time and labor efficiencies abound in pre-configured access control and power solution**

March 31, 2017—Time is money. Security installation companies need new ways to trim time in the field so they can quickly and efficiently connect solutions and move to the next project without intensive labor constraints. LifeSafety Power Inc., Mundelein, Ill., has the answer with Unified Wired™ systems that pre-wire all lock and system power connections to Authentic Mercury Security terminal strips for quick set up and deployment.
