AMAG ProWire®
Pre-Wired Power Systems

Precision factory wired for system power, lock control, communication, power system faults, and tamper switch. AMAG ProWire solutions are ready-to-install, simplifying and standardizing access installations across the enterprise.

ProWire Features

• Guarantees uniform installations across an enterprise
• Pre-installed wire harness for panel power, lock control, faults and tamper switch
• Point to point wiring; labeled, color coded, twisted pair, shielded communication
• Tie wrap or Panduit cable management
• Managed systems monitor power, batteries and M8 outputs
